

Numéro Berlin

Mediakit 2023

01 Berlin New York London Paris & Milan

Numéro Berlin is the platform and a reflection of a new German style and of an ambitious creative generation, which forms art, culture and fashion in a new way. We want to convey this on a local and international level in all facets. By combining the power of images and words, the magazine creates a new language – staged by the most talented and best authors and photographers worldwide

02 Hedonistic and Free-spirited

Like the talent showcased in Numéro Berlin, we want to strike new paths fearlessly, to break away from the usual thought patterns and to challenge determined habits. While doing so we are inspired by the international world of art and fashion, but also by the hedonistic history of the city which is Berlin. A city which has been considered as the most liberal city in the world for a long time – and which is now on the right pathway to becoming as free-spirited as it has been at the beginning of the 20th century.

03 Sensual and Passionate

Numéro Berlin celebrates fashion with ease and passion – so do our female readers. They are part of an exciting, constantly changing world and so are we. They live in it, characterize it, and form it at their will. They are high achievers and children and careers are not ruled out for them – if they want both. The Numéro Berlin readers are self-confident in their actions and their decisions. They celebrate their womanhood, live a self-determined sexuality and have high demands on aesthetics. Clothes and arts are an expression of their personality and a confession to a cosmopolitan world view, in which intellectuality and sensuality are no inconsistencies.

04 New Luxury

Numéro Berlin is impulsive, intuitively looking for the new. Numéro Berlin wants to be a powerful voice of change. We want to shape an avant-garde aesthetic on the highest international level, which injects the German fashion sector with new energy.

Numéro Berlin is a manifest for a new understanding of luxury. The beautiful can be ugly and the ugly can be beautiful. Fashion has always been a key indicator of today's world and we want to celebrate this within the pages of the magazine.

05 Highest Demands

Not only for fashion, Numéro Berlin pursues the highest demands. Also the text will reflect the world in which we live profoundly and in a high content level. Art, literature, film and music, but also political topics are analysed and described by sophisticated authors and talented journalists. Like the whole magazine also the text shows the struggle of the wild and fast time in which we live.

A Strong and International Partner

Numéro Berlin has developed the status of one of the most important culture and fashion magazines ever by ground-breaking fashion productions and high-grade journalism. The cutting-edge position of the magazine is far beyond the scope of print and France as country of origin and continues in social networks as Facebook and Instagram, on blogs and by selected events and cooperation. Numéro Berlin readers belong to an international class of opinion leaders, which influence others by their style and their consumer behaviour essentially. For them Numéro Berlin has become a real fashion and trend guide. With its credibility and its status the brand Numéro Berlin is the perfect partner for each advertiser, who wants to make their products known within the spearhead of the trendsetting groups.
